5. MATTER RELATING TO THE REQUIREMENT OF A REPRESENTATIVE IN THE COUNCIL OF MINISTERS

Regarding the proposal to depute a People's Representative in the Council of Ministers, the members of the Assembly asserted that since the Royal Advisory Council included representatives of the Monk Bodies, the government and the people, there was no reason to depute a separate people's representative in the Council of Ministers. However, if necessary, the matter would be referred to the Royal Advisory Council.

6. MATTER RELATING TO HIS MAJESTY'S PRIVY PURSE

The prevailing peace and tranquility in the country could be attributed to the dynamic leadership of His Majesty. Although His Majesty was vested with sovereign powers, all governmental revenues were kept in the Ministry of Finance. During the earlier session of the National Assembly, a sum of Nu. 1,00,000/- was earmarked for the privy purse of His Majesty. Consequent upon the introduction of the tax-in-cash system, the Tashigang Monk Body was supposed to collect the required firewood by themselves. Since the collection of firewood by the monks was not practicable, it was decided that, as in other Monk Bodies, the concerned public would supply the Monk Body with the required firewood free of cost.

15. MATTER RELATING TO FIREWOOD

With a view to generating more revenue, it was decided in the previous National Assembly Session that no tree included in the scheduled list of the Forest Department could be felled for the purpose of firewood. However, some Assembly members pointed out that in some parts of the country inferior quality timber not included in the list were not available. 16. MATTER RELATING TO FELLING OF TREES IN SHIFTING CULTIVATION

18. MATTER RELATING TO OFFERING OF THOGPHOI

The present system of paying ch. 50/- per day to monks as curry allowance was not adequate as a result of the increased cost of living. This donation would be purely on a voluntary basis, and there would be no compulsion whatsoever.

19. MATTER RELATING TO RENOVATION OF DZONGS

As per the past decision of the National Assembly the people themselves would carry out the renovation of Dzongs without wages in their respective Dzongkhags. 20. MATTER RELATING TO THE RENOVATION AND CONSTRUCTION OF PUNAKHA BRIDGES

Although, there was a proposal to abolish Chunidom, the responsibility of making the bridges (Kangzam) at the two rivers of Punakha Dzong would fall on the people of Wangdiphodrang, Thimphu and Paro as per the earlier practice. Accordingly, the said people had agreed to make the bridges without taking wages from the government.

21. MATTER RELATING TO THE CONSTRUCTION OF IRRIGATION CHANNEL

During the 2nd Five Year Plan, a sum of Nu. 91 lakhs was earmarked for the irrigation projects. Since the irrigation channels to be constructed were numerous, it was decided that the Department of Agriculture would provide technical manpower, implements and materials like cement explosives etc, for all major irrigation projects in the country. The villagers in turn were to provide free unskilled labour to the extent required for each project.

22. MATTER RELATING TO PERMISSION TO WALK WITHIN THE PARO AIR FIELD

There was a complaint that as a result of the barbed wire fencing around the air-field at Paro, the villagers could not go to their fields without making a long detour. It was decided that a special gate would be made which would permit villagers to go directly to their fields.
